**BALE WEIGHT 350-400 KG**

# BALEX-40

Europress Balex-40 is a compact vertical baler for wide range of uses. It is the most powerful baler in its class with its 40 tons compression force. With its highly powerful and stable compression, the Balex-40 produces very dense bales weighing up to 400 kg. The cross cylinder design of the baler ensures a small footprint. With its low overall height of just 1,995 mm, it is easy to place in limited space.

The dual mode function features two separate programs to optimize the balers for different refuses. They are suitable for a wide range of materials including cardboard, plastics and textiles. The operating noise level remains low despite their stable and fast compression to produce very dense bales.

Large infeed opening guarantees easy loading. The strap box is conveniently located at the front of the baler for quick strap change and bale tie off. Pallet guide is featured as standard for easy pallet placement.

Compaction force (t)	40
Dimensions H x W x D (mm)	1,995 x 1,810 x 1,250
Weight (kg)	2,060
Infeed opening H x W x D (mm)	520 x 1,120 x 950
Infeed height (mm)	940
Bale dimensions H x W x D (mm)	950 x 1,200 x 840
Bale weight (kg) (cardboard)	350–400
Press cycle time (s)	61
Noise level (dBa)	59
Motor (kW)	4.0
Power supply	400 V, 50 Hz, 3x C16 A
