**MOBILE WASTE COMPACTORS
FOR DAMP WASTE**

**DAMP MIXED WASTE
INTELLIGENT SMART-TECHNOLOGY
STANDARD CONTAINER 10-20 M³**

COMBIMAX WET

Europress CombiMax WET is a robust waste compactor for active usage. It is ideal solution for mixed waste with some moisture content due to its water proof design. Its horizontal ram technology and up to 35 tons pressing force both contribute to high payloads.

The waterproof design includes rear liquid threshold with sealed discharge door and sealed maintenance hatch. The design effectively keeps the liquids in the container and ensures hygiene at the placement site.

Europress CombiMax WET can be supplied with a range of accessories including bin lifts, odor control and drainage systems. The waterproof waste compactors are available in several standard container capacities: 10 m³, 14 m³, 17m³ and 20 m³.

Intelligent SMART technology on the compactors contributes to more cost-efficient and safe operation. Device settings can be individually adjusted to best meet various waste management requirements.

Infeed aperture H X W (mm)	1,850 x 1,300
Compaction force (t)	35
Press cycle time (s)	35
Capacity (m³/h) (cardboard)	90
Infeed height , ground level (mm)	1,480
Motor (kW)	5.5 / 7.5*
Power supply	400 V, 50 Hz, 3x C16 A 400 V, 50 Hz, 3x C32 A*

10 | 14 17 | 20 M³ CAPACITY

STANDARD ACCESSORIES

BLUE COLOR RAL 5017 / STANDARD FILLING HOPPER
LIFT HOOKS FRONT AND REAR / INTELLIGENT SMART TECHNOLOGY
EUROPRESS SMART CONNECTIVITY READINESS

OPTIONAL ACCESSORIES

CUSTOM RAL COLOR / GUIDE RAILS
ADDITIONAL CONTROLS E.G. EMERGENCY STOPS / ROLLERS FRONT AND REAR (ROLL-OFF)
CUSTOM FILLING HOPPER / DRAINAGE SYSTEM
2-PHASE DISCHARGE DOOR OPENING MECHANISM
LONG HANDLE DISCHARGE DOOR OPENING MECHANISM
TOP HINGED DISCHARGE DOOR / OZONE GENERATOR OR COOLER DEVICE (ODOR CONTROL)
BIN LIFT (INTEGRATED OR STATIONARY) / LID OPENING SYSTEM (HYDRAULIC OR ELECTRONIC)
CODE START SYSTEM / AUTO START SYSTEM
