

# VERSAMAX L FEATURES

The speed, capacity and press power can be tailored according to the customers' needs.

**Customizable for special waste fractions**, such as dry, non-recyclable waste from production processes. Suitable for logistic centers, printing houses, paper mills, and municipal solid waste transfer stations or waste sorting plants.

**Quiet operating sound.**

**Robust structure.** Designed and manufactured for versatile conditions.

#### SMART 5G

- Automatic pick-up request
- Remote maintenance
- Filling prediction
- Additional emptying request

Built-in **SMART-technology** guarantees the **energy efficiency** of the waste compactor. VersaMax L uses less electricity than traditional waste compactors.

# VERSAMAX L FEATURES

**Can be fitted with a 2-part gate solution** (both the compactor and container) that reduces littering and allows the usage of the feeding hopper even when the container is being emptied.

**Automatic container locking available as an option for even easier emptying.**

### Best-selling accessories:

- Tipping device
- Automatic lid opening mechanism (hydraulic/electric)
- Custom filling hopper
- Auto start system
- Oil cooler

Standard container sizes **20-32 m<sup>3</sup>**.

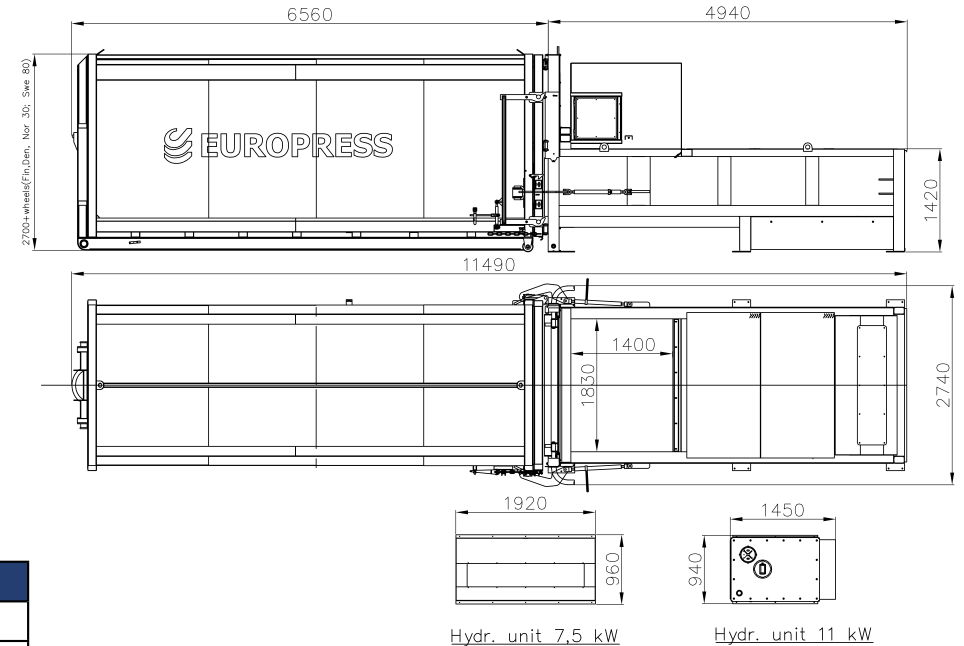

The device has a **built-in GPS module**, which shows the location of the device.

### WASTE FRACTIONS

Cardboard  
Dry mixed waste  
Paper  
Mixed plastic waste

# TECHNICAL SPECIFICATIONS
